## Ring Size Chart

1 - Cut a string or paper strip about 100 mm long and 2 mm wide.
2 - Wrap around the base of your finger. It has to fit snug, but not too tight. 3 - Mark the point on the string/paper where it overlaps forming a circle. 4 - Compare the length of the string/paper to the chart attached.
*If you are between sizes, order a larger size. Make sure your finger is at a normal body temperature (fingers shrink or expand when cold or hot). If your knuckle is much larger than your finger's base, take two separate measurements and choose a size in between. You want a ring to fit over your knuckle, but not be too loose or it will shift around.

| Circumference (mm) | $\begin{aligned} & \text { Diameter } \\ & \text { (mm) } \end{aligned}$ | Europe |  <br> Australia | USA \& Canada Choo Yilin Sizing | China | Japan | Hong Kong | Switzerland |
